PROFESSIONAL EXPERIENCE

Senior Consultant — Offensive Security *NetSentries*

Sep 2024 — Present

- Lead Consultant across multiple simultaneous enterprise engagements, owning end-to-end delivery including scoping, execution, and executive-level reporting.
- Reported 1,000+ Early Notifications (ENs) of Critical/High severity findings across the client portfolio; designated specialist on low-yield engagements to surface high-impact vulnerabilities where others found none.
- Lead all Production Security assessments across client accounts, ensuring continuous security posture coverage for critical infrastructure.
- Designated Level-1 Reviewer for all trackers and pentest reports across the team, maintaining delivery quality and consistency.

Consultant — Offensive Security *NetSentries*

Sep 2023 — Sep 2024

- Delivered impact-focused grey-box penetration tests specializing in web application and API security, consistently uncovering Critical and High severity vulnerabilities across enterprise client environments.
- Engineered internal automation tooling and conducted R&D to streamline the grey-box web application testing workflow, reducing manual overhead for the wider offensive security team.
- Expanded assessment coverage to iOS and Android mobile platforms, broadening the team's cross-platform offensive testing capability.

Associate Consultant — Offensive Security *NetSentries*

Apr 2023 — Sep 2023

- Conducted grey-box penetration tests across web applications, REST APIs, Android/iOS mobile apps, and thick client applications for multiple enterprise clients.
- Developed hands-on proficiency across the full offensive assessment lifecycle — from threat modelling and attack surface enumeration through to exploitation and remediation reporting.

TECHNICAL SKILLS

- | | |
|-------------------------------------|---|
| ▶ Web Application & API Pentesting | ▶ Smart Contract Auditing (Solidity, Foundry) |
| ▶ Mobile Pentesting (iOS & Android) | ▶ CI/CD, Docker, Kubernetes |
| ▶ Thick Client Pentesting | ▶ IaC (Terraform, GitHub Actions) |
| ▶ Programming (Python, Bash) | ▶ Threat Modeling & Incident Response |

ADDITIONAL INFORMATION

Tools: Burp Suite Pro, Metasploit, Frida, Objection, SAST/DAST/SCA, Foundry, Jenkins, Ansible

Certifications: CDP, eWPTX, eCPPT v2

Security Research: HTB Rank: Pro Hacker | TryHackMe Rank: 0x9 OMNI | Hall of Fame: Microsoft, IBM, Floriday

Web3 / Smart Contract Security: Competitive auditor on CodeHawks, Cantina, and Code4rena — audited protocols including Reserve Governor and AggLayer; CodeHawks First Flights Rank #310 (XP: 866); research focus areas: reentrancy, oracle manipulation, front-running, cross-chain settlement.

EDUCATION

Rajiv Gandhi Institute of Petroleum Technology

2017 — 2021

B.Tech. in Petroleum Engineering | CGPA: 8.08
